SUMMARY

A software developer that can adjust to both solo and group settings while maintaining focus on meeting deadlines and delivering high quality results. Skilled in building responsive and user-friendly websites and web applications. Eager to contribute to real-world projects, learn from experienced teams.

PROJECTS

AI-Powered Collaborative Chat Web App
Built using MERN stack

- Built a real-time chat app with user collaboration via WebSockets.
- Integrated AI chatbot using Gemini API for smart replies and task suggestions.
- Secured app with JWT-based authentication and bcrypt for password encryption.

Personal Portfolio
Developed with ReactJS — Hosted on Github pages

- Designed and developed a fully responsive personal portfolio using React.js to showcase projects, skills, and contact information.
- Implemented smooth scroll, animations, and dynamic components to enhance user experience and interactivity.

Codepen Clone
Created with ReactJS

- Developed a CodePen clone using React.js with live HTML, CSS, and JS code editing and preview.
- Enabled real-time code rendering using iframe sandbox and state synchronization.
- Implemented user-friendly UI with responsive design and syntax highlighting via CodeMirror

SKILLS

C++, HTML , CSS, Tailwind CSS, Javascript, ReactJS, NextJS, NodeJS, ExpressJS, MongoDB, Git, GitHub
